As early as 1947, there were three soccer clubs in Trikala: the Trikala Soccer Club “ACHILLEUS,” led by Vasileios Katafigiotis and wearing blue-and-white colors, the Trikala Football Athletic Club “PAOT,” with yellow-and-black colors, and the “HERACLES” Football Club with green-and-white colors. The “TRIKKI” soccer team was informally founded in 1949 in the city of Trikala by young soccer players from its main neighborhoods (Saraya, Tabakika, Kallithea, Gardikaki, Kosmali, Stathmos, Trana Mnimata, Kyrna, and Flegiou).

The team’s colors were green and white, and the players purchased their own uniforms. The team’s locker room was located in the basement of general manager Athanasios Christakos’s home on Syngrou Street and later at the home of Georgios Kyritsis on Katsimidou Street near the city stadium. Athanasios Christakos made the greatest contribution to the club and often served as coach as well.

In the spring of 1950, the “PAOT” and “HERAKLES” soccer teams merged to form the new soccer team “Athletic Union of Trikala (AET),” to which physical education teacher Vasileios Peligos contributed greatly; he distinguished himself particularly in track and field and soccer, both as an athlete and as a coach. The colors of “A.E.T.” were red and white.

In 1951, “TRIKKI” was recognized and joined the Thessaly Football Association, and together with the new club “DIAGORAS,” they participated in the Second Division championship.

The team's anthem was composed by Sotirios Gorgogetas, a player during the 1957–1958 season, and went as follows:

"Trikki is a team
with a starting lineup of aces,
all brave lads, all fine young men.
With Christakos as captain
and Miga's curling shot,
the ball flies into the net

More than fifty years later a public memory of Trikki

The newspaper is already valuable for this reason, because it shows that Trikki exists not only as a family memory but also as part of a broader local history.

And what remains when
people and moments are gone?

The memories that continue to give life a meaning.
